

NNT REPLACEMENT MODEL CHECKLIST

Send these details for electro-pneumatic regulator review

Use this page before requesting an NNT option for an existing SMC, Festo, CKD, Airtac, Parker, Norgren or other regulator. A model name alone is not enough.

Item	Your information
Current brand	
Current model number	
Nameplate photo sent?	Yes / No
New project or replacement	
Equipment / application	
Pressure range	
Input signal	0-10V / 4-20mA / 0-5V / 0-20mA / Preset / ModBus / Not sure
